SWIMMING DEMONSTRATION SUN.-MON.

WATER SPORTS CARNIVAL SUN.-DAY: FREE TO ALL

Commodore W. E. Longfellow, assistant director of the American Red Cross in first aid and life-saving, who is making a tour of East Michigan resorts, under the direction of the East Michigan Tourist Association, will be in Grayling next Sunday and Monday, July 31st and August 1st, to stage his water safety and life-saving demonstrations at Lake Margrethe.

On Sunday afternoon, at three

COM. W. E. LONGFELLOW

o'clock there will be a water sports carnival with races and diving contests for girls and boys, women and men. Also at this time the great human fish contest will take place. The latter should appeal to all swimmers and fishermen as it is a contest between a good fisherman and a good swimmer. The fisherman has a hook and line which is attached to the belt of the swimmer, and while the former tries his best to bring the swimmer to him, the swimmer puts up a fight to keep away. This will be worth while watching. Commodore Longfellow will be one of the judges in the contests.

Also on Sunday Commodore Longfellow will give mass instructions to non-swimmers. This mass instruction has made a pronounced hit wherever he has appeared because of the success he has in teaching the non-swimmer how to swim in less than 30 minutes.

On Monday morning at 10:00 o'clock Mr. Longfellow will appoint life saving experts, as he does in all places he visits. Boys and girls and men and women are eligible as candidates and the tests are as interesting for on-lookers as for the candidates.

Commodore Longfellow weighs 300 pounds, is an expert swimmer and has instructed hundreds of persons in all most every state and the Hawaiian Islands in Red Cross life-saving methods. Everyone should be at Lake Margrethe next Sunday and Monday.

This demonstration is brought to Grayling under the auspices of the local Red Cross Chapter, and is free to everyone.

SAFETY HINTS FOR THE WEEK

Liberty does not stand for carelessness. Abolish hazards and you abolish flames. Fire protection is self protection. Use soap and water to get things clean. It is cheaper and safer than gasoline. Clean fires keep the home fires burning. You don't need to be in the army to protect your country; put out that camp fire. To keep well and fair, breathe plenty of fresh air. Let the barber give pedestrians a close shave.

CAROL NOT TO PRESS DEMAND FOR THRONE

Renounces Rights Forever, According to an Unconfirmed Report.

Paris.—An unconfirmed report stated Prince Carol had sent a message to his sister in Bucharest stating: "I have renounced my rights to the Rumanian throne forever. I will be true to my word and never create trouble in my country."

Berlin.—A dispatch to the Nacht Ausgab from Bucharest says a demonstration in favor of Prince Carol occurred at Fagaras. The demonstrators were said to have been dispersed by cavalry, several of the crowd being killed. Fagaras is in the district of the same name and is about 115 miles northwest of Bucharest.

Bucharest.—Reports of sporadic clashes in Fagaras between supporters of Prince Carol and government forces indicated that Carol's avowed intention of assuming his rights as King of Rumania is more than an idle threat.

Paris.—It was learned that King Ferdinand in his will, leaving \$400,000 to his exiled son, had stipulated that Carol was not to return to his homeland. Rumanian officials denied permission to the recalcitrant prince to attend his father's funeral and cited the law nullifying the renunciation of the throne made by Carol some time ago.

Approximately \$1,000,000 of King Ferdinand's personal fortune has been bequeathed to charity; it was turned in dispatches from Bucharest. In the king's will he expressed regret that owing to the war and its aftermath of unsatisfactory economic conditions, he had been unable to increase that portion of his estate which he had set aside to aid education, hospitals, homes and other institutions.

King Ferdinand expressed regret that the actions of his son Carol made it impossible for the latter to succeed to the throne, which was willed to Prince Michael, his grandson.

Houses in the Rumanian capital are bequeathed to Queen Marie, who also receives the Cotroceni Palace in Bucharest and the Sinala castle. Princess Elizabeth, Princess Helena and Prince Nicholas also receive estates, while stocks and a large sum of money are willed to his other daughter, Queen Marie of Yugo-Slavia. No mention is made of Princess Helen, the queen mother, and the new king, Michael.

Thousands viewed King Ferdinand's body as it lay in state in the Cotroceni palace. Burial took place in the royal mausoleum at Gortea de Arad.

ATTENDANCE INCREASED TO 65,000 MEN

16 Trains Required to Transport Michigan National Guard. A detachment of the 182nd Field Artillery, consisting of two officers and 24 enlisted men and an equipment train, will be the first to arrive at Camp Grayling for the annual summer training period. This organization is due to arrive at the camp at 4:30 o'clock Sunday morning, July 31st. Other organizations are due to arrive August 2nd and are to be followed by other detachments and by the main body of troops August 6th. The last organizations to arrive will be the 119th Field Artillery which are due at camp August 9th.

The 32nd Division Air Service as a new department has been added to the Michigan National Guard. A detachment of this organization is due to arrive by airplane at 2:00 p. m., August 6th. This will be followed at 6:00 o'clock the same day by remainder of the organization, equipment, etc.

Col. LeRoy Pearson and the Quartermaster department have already opened their offices in the administration building. Next week will find the big camp in full blast and the young men of the Guard receiving training in military affairs.

The Michigan National Guard are always welcome visitors to Grayling.

CLAYTON SHERMAN OFF FOR CHINA

IS SERVING IN UNCLE SAM'S MARINES

San Diego, Calif., July.—Some of the interesting events now occurring in China are likely to be witnessed by Clayton C. Sherman, of Frederic, near Grayling, Mich., who was one of the latest men to leave this western base for service with the expeditionary force of U. S. Marines at Shanghai.

He was with a detachment of marines who embarked on the S. S. President Pierce, with Shanghai as their destination. Due to the rapid shifting of troops, however, the local marine may eventually go to Tientsin or some other point in China, where the marines are guarding American lives and interests.

Three or four thousand U. S. Marines have been ordered to China since last February, and from time to time small detachments are likely to be ordered there, remaining for an indefinite period.

Clayton is 21 years old and was born in Frederic. He lived in Frederic before he joined the Marine Corps, 2,800 Detroit, in January 1925. He was stationed at San Diego when he was selected for service abroad.

Clayton is the youngest son of Nettie Sherman of Grayling, the formerly residing in Frederic.

GOOD FELLOWSHIP CH. PARTY

The annual charity party given by the Good Fellowship club was Tuesday afternoon and evening. Officers' club house. The ball and lobby of this beautiful club had been most attractively arranged with baskets of wild flowers, added greatly to the charm of the parties. In the afternoon some 25 ladies enjoyed bridge and "500." A. J. Joseph and Mrs. J. W. Letzke held the high scores. In the evening a very good crowd was present for dancing. Excellent music was furnished by Schram's Ramblers. These parties have been an affair for several years and the reputation of giving guests a very delightful time, receipts from these affairs are for charity work of the club.

PRESIDENT FILMED WHILE FISHING

Washington, D. C.—The newspaper photographers at Rapid City, he finally achieved their desire and made a picture of the President while fishing. For 8 years now the photographers have been persistent in their quest that they be permitted to take a picture of the President's fishing activities, and finally he allowed them to have their way.

For the information of the public, it is just as well to make known that the multitude of pictures of the President which daily flow out of the Black Hills are frankly not of his seeking. The President is still hoping for the dawn of even a single day when he will be able to walk, ride, fish or hunt without an accompanying battery of motion picture photographers. It might surprise the public to know that the pictures which are daily seen, really represent only one of every ten requests made of him. In this particular case, it can be said, the President's decision to allow the photographers to picture him while fishing was made only after a delegation of citizens had waited on him and asked him to favor to consent, because of the many demands which had been made by the people throughout the country for this particular type of picture.

PROTECT THE "SPIKEHORN" SAYS CURWOOD

AUTHOR PLEADS FOR COMMON SENSE GAME PROTECTION IN MICHIGAN

ONLY KILLERS ENTER PROTEST. SENSIBLE ACTION NOW WILL MEAN BETTER HUNTING LATER. By James Oliver Curwood. I am positive that even those hunters who now oppose the protection of the spikehorn buck would be wholeheartedly for its protection if they actually knew the conditions. That is, unless they happened to be of that Old Guard who fought against the One-Buck law, who fight against every protective and progressive measure, and who would like to legalize the spear, which has been outlawed in every progressive state. The members of this Old Guard, the killers who would see the last grouse die before they would voluntarily close a season, that great minority among real hunters and fishermen who look upon all natural resource as their own until the last hair and feather are gone, are now sending their protests to the Conservation department at Lansing against the protection of the young spikehorn.

But the great mass of the hunters, those hundreds of thousands of real sportsmen who want to be better hunters and fishermen, are now sending their protests to the Conservation department at Lansing against the protection of the young spikehorn.

For the benefit of their church, the ladies of St. Mary's church are this year giving a Summer Carnival, as their annual fund in August. This will make the fourth annual fund to be given by this society and those in the past have always proven very successful, socially, as well as financially. The ladies have been working the greater part of the summer, sewing and getting ready for it and promise that you will not be sorry you attended.

The Carnival will open at 3:00 o'clock in the afternoon at the school gymnasium, and there will be booths of various kinds, games, music, and entertainment. Mrs. C. G. Clippert and Mrs. H. W. Wolf of Lake Marquette are in charge of the program, which is good assurance that it will be a very fine one. This will be rendered during the supper hour.

Mrs. J. W. Letzke is general chairman, and the following are the chairmen of the various committees and booths:

Advertising—Mrs. Frank Anstett. Decorating—Mrs. A. E. Mason. Fancy work and novelty counter—Mrs. Louis Kessler. Sweet shop—Miss Hazel Cassidy. Miss Lucille Hanson. Ice cream and soft drinks—Mrs. Carl Nelson. Supper—Mrs. J. E. Bobenmoyer. Games for rugs, baskets and aprons—Coletta Smith, Walter Nader. Games for aluminum—Mrs. Alex LaGrave, Frank Tetu. Stunts—Mrs. Frank Tetu. Grab bag—Mrs. B. J. Callahan. The chop suey supper that will be served between the hours of 4:30 and 7:00 o'clock will be a treat, as the chop suey is to be made by Mrs. J. E. Bobenmoyer, who is famous for this dish. So plan to eat your supper on August 18th at the school gymnasium.

During the evening the six articles on which tickets are being sold by the ladies will be given away. These articles consist of a beautiful porch swing, which was purchased through Johnson Brothers, and which may be seen at their store; a pretty pieced quilt, an electric lamp, a lovely Irish pocket set, a barrel of flour and a pretty dinner ring.

Everyone is cordially invited to attend the Summer Carnival at the school gymnasium, August 18th. There is no admission charge. Come when you wish and stay as long as you like.

ASKS FARMERS TO PLANT ALFALFA

This week, County Agent R. D. Bailey is sending to all farmers in the county an urgent appeal, asking each one to use the last opportunity of the season to plant a piece of alfalfa or sweet clover, if no more than half an acre. August 15 is about the latest date that these valuable grasses can be planted here with the certainty of living through the winter. Every farm should have at least half an acre as pasture for the brood sow with her young. Every farm that keeps hens needs alfalfa as it is a valuable hen food. Those who refrain from planting, fearing that their soil needs lime, can partially overcome this defect by the liberal use of acid phosphate fertilizer, of which there is still a small supply at the farmers' warehouse.

Average Farm Income

Drops 5% in One Year

Washington.—Gross agricultural income for the crop year July, 1926, to June, 1927, showed a decrease of about 5 per cent, according to an estimate by the bureau of agricultural economics. The decline was due chiefly to the falling off in cotton prices. Smaller income is estimated for feed grains, apples and potatoes, which was only partially offset by somewhat higher returns from live stock and live stock products.

The estimate of the gross agricultural income for the past crop year is \$2,080,000,000 compared with \$2,190,000,000 for the previous year. The average income per farm operator is \$1,040, compared with \$1,090 in 1926.

The average income per farm operator is \$1,040, compared with \$1,090 in 1926.

Germany Denies Belgian Charge on Disarming

Berlin.—Germany has received a second note from Belgium charging Germany has failed to fulfill the disarmament clauses of the Versailles treaty and it is predicted that the Berlin government will appeal to the League of Nations to settle the dispute. Germany replied to the latest Belgian note, repeating that the Belgian defense minister has failed to substantiate his allegations. Regarding the amount spent on Germany's army, the German answer said: "The German army expenses are not limited by the Versailles treaty and Germany is not accountable therefore to the signatory powers."

Michelson Memorial Church

John Wilfred Greenwood, Minister

Sunday, July 31st, 1927

(All services begin on Eastern Standard Time.)

At 10:30 A. M., a real service of worship and music. The minister will speak on the theme "The Tyranny of Things." It has been suggested by the statement "when the sense of mystery fades, religious emotion pale; when it disappears, they die." At 7:30 P. M. the pastor will bring to the congregation one of the informal messages which characterize our Sunday evening services. "Some minds of some men" will be the theme.

A Thought for the Week

Theodore Roosevelt gave reasons for going to church. Here are some of them.

1. In this actual world, a churchless community, a community where men have abandoned and scoffed at or ignored their religious needs, is a community on the rapid down grade. 2. Church work and church attendance means the cultivation of the habit of feeling some responsibility for others. 3. There are enough holidays for most of us. Sundays differ from other holidays in the fact that there are fifty-two of them every year. Therefore, on Sundays, go to church. 4. Yes, I know all the excuses. I know that one can worship the Great God in a grove of trees, or by a running brook, or in a man's own house, just as well as in a church, but I also know, as a matter of fact, that the average man does not thus worship. 5. I advocate a man joining in church work, for the sake of having his faith by his work.

DUTIES FOR DRIVERS

An apt prelude from a car ahead means that the driver is: 1. Knocking ashes off his cigarette. 2. Going to turn to the left. 3. Telling a small boy to shut up. 4. Going to turn to the right. 5. Pointing out a scenic spot. 6. Going to back up. 7. Peeling for rain. 8. Telling his wife: "Hell, yes, he's sure the kitchen door is locked." 9. Saluting a passing motorist. 10. Going to stop.

When Ban Johnson Started

It was in 1893 that Ban Johnson, who recently resigned as president of the American League, really started on his successful career as a baseball executive, as it was then he was selected by Charles Comiskey and other club owners to head the reorganized Western League which in 1900 developed into the American League.

Care of Evergreens

Dead wood should be removed from evergreens whenever discovered. Other pruning should be done as new growth is starting. Many evergreens do not start growth from old wood, so the pruning should not be severe enough to remove all the growing shoots from any branch.

believe that our industrial leaders are right here in the United States. The "barefoot boy with cheeks of tan" of yesterday, is today heading the world's biggest industries, but down in his heart he is still the same "barefoot boy" willing to share with others the things which he has earned. The next time you hear some loud-mouthed soap box bragger telling how labor is being exploited, take him out and show him the other, the beautiful, side of the picture.

Did you ever stop to think about the man who is making life and as comfort possible for you? Have you realized that most of the men who head his industries today came up through the ranks and have never lost their great love for humanity?

Or have you been getting your viewpoint from the writers about "Main Street," who would have you

Romance and Flowers

in Long Association

In the development of gift-making in courthip a certain amount of romance centers around the flower. The flower is the gift of lovers, and in early Greek times a flower was the word as a sign of the engagement, the full-blossoming flower suggesting love awakened. The Egyptian man, as well as the women, wear flowers behind their ears when they are in love. The survival of another picturesque medieval custom centering around the flower is found in the bride's flower girls of today. In older times these little girls, usually sisters, dressed exactly alike, carried garlands of wheat before the bride in the marriage procession as a symbol of fruitfulness and plenty. The very old and universally observed custom of throwing rice after the departing bride and bridegroom as a symbol of a fruitful union had its origin with the ancient Persians. Rice has always played an important part in the marriage ceremony of these people; while the wheat shower, expressing the same sentiment, was common among the early Anglo-Saxons, and certain other people employed corn. Another interesting tradition regarding the rice shower is that rice was thrown after the bride and bridegroom for the purpose of giving food to the evil spirits that were believed to accompany newly married people, and that it was to appease these spirits that rice throwing originated.

Hawaiian Island Has Many Claims to Fame

Maul, one of the islands of the Hawaiian group, has for its motto the phrase "Maul no ka oi," meaning "Maul the First." The island authorities have just cited a number of historical facts in support of their boast. Maul has Haleakala, largest extinct volcano crater in the world, the scene in 1823 of the first Christian funeral of a Hawaiian chieftain. The earliest island newspaper, as well as the first on the Pacific ocean, was published there in 1834. The paper was called Ka Lihina Hawaii, meaning "The Arm of Hawaii." David Malo, earliest Hawaiian historian, was a Maul man. The island also had the first telegraph line strung between Hawaii and Wailuku in 1878. The first Hawaiian wheat was planted at Makawae, Maul, in 1845, and not long afterward the first potato plantation was started at Kula, where tubers were raised for the California gold miners.

Oxygen in Air

Normal air contains about 21 per cent of oxygen, says the United States bureau of mines. Man works best at this proportion of oxygen. A candle or oil flame will not burn in atmosphere containing less than approximately 16 1/2 per cent oxygen, yet man is sufficiently adaptable to get along fairly well in 17 per cent of oxygen. He will breathe a little faster and a little deeper. But most men cannot work in air with oxygen below 13 per cent, the point where an acetylene flame is extinguished by oxygen deficiency. In an atmosphere containing between 10 and 13 per cent oxygen, men become dizzy, faint, have a rapid heart beat, and often suffer from headache. At 10 per cent usually produces unconsciousness and ultimately death.

Trollope's Cigars

Lord Bickenhead recently boasted a lifelong devotion to cigar smoking, but he can hardly claim to have given more thought and time to his hobby than did Anthony Trollope, remarks the Manchester Guardian. Trollope, as soon as his income was large enough to stand the expense, had one entire wall of his library equipped with neat little bins fitted with sliding doors and numbered. These he kept filled with choice cigars, laid across and across like planks of timber to get thoroughly seasoned. True to the Trollope tradition, he worked through the bins in methodical fashion, refilling each as it was emptied with special imports from Havana. Thus, he declared, he attained the most perfect smoke in the world.

Porpoise's Fish Appetite

The porpoise has a great appetite, is feeding constantly as opportunity offers and lives principally on fish, and scientists were able recently to get a clew to the number of fish a porpoise may eat when a giant porpoise was caught and 15,108 minnows were found in its stomach.

The otolith is the earbone of a fish, is very hard, supposed to be the last remnant of a fish that is reduced by the chemical process to the mummified stomach, and the large number found may be far less than the number of fish served life and wiggling for the satisfaction of the porpoise. At any rate, it bids fair to hold first place as a fish eater.

The Arabian Nights

The author of the original Arabic work, and the period in which it was composed, is unknown. But the Arabian Nights, as it stands at present, is the work of many hands, and numerous references in the stories show that they were added at different times. The work was introduced into Europe from Syria, where it was obtained in the latter part of the Seventeenth century by a Frenchman, a French traveler. It was first translated and published by him between 1704 and 1717.

Needed Element

The fat of meat is highly digestible and constitutes an important source of energy-producing nutriment in the diet. Fat and carbohydrates in the food are the main sources of fat, heat and activity in the body. Fat stored in the body is the body's principal energy reserve.

President Coolidge has probably found that the Black Hills are a great deal quieter than they were when he saw them in the movies.

Baskets of choice cut flowers were placed throughout the rooms and the whole affair was carried out in pink and white.

The next regular meeting will be held on August 30th.

Mrs. Herbert Trudeau was hostess at a prettily appointed luncheon at her home Tuesday. The small tables were pretty with but vases filled with sweet peas while the large table held a basket of sweet peas and baby breath, the handle of the basket being tied with a pink tulle bow. Baskets of choice cut flowers were placed throughout the rooms and the whole affair was carried out in pink and white.

The next regular meeting will be held on August 30th.

Why Pay More? Save \$10.00

During the month of August pay us \$5.00 and receive credit for \$15.00 as a first payment on a Sunbeam Cabinet Heater. This is the Sunbeam Saving Season. Call at our store and learn more about the Great Sunbeam Fuel Saving Heater.

Take a look at our Bargain Counter, the 50c section as well as the 75c counter, offers an opportunity to select many beautiful pieces of China suitable for gifts at great savings. Sugar and Creams count one piece, and are on the bargain counter at 50c—and there is a fine lot to select from.

When at our Store ask to see samples of Johnson's artistic Kodak pictures. It will interest you. Look over the fine work done along this line and next time when you have a film to be developed leave it with us.
